

**WHAT IS A CHILDREN'S TREATMENT CENTRE?**

Children's Treatment Centres (CTCs) provide a broad range of services and supports to children and youth with special needs from birth to 19 years of age and their families. There are 21 Children's Treatment Centres in Ontario that serve approximately 40,000 children and youth. CTCs are listed under the Public Hospitals Act and provide therapy and support services to children with communication, developmental and physical needs including those children

and youth with multiple special needs. CTCs offer a broad range of assessment, diagnosis, treatment and community programs with basic rehabilitation services including physiotherapy, occupational therapy, speech-language pathology, social work and therapeutic recreation. Other more specialized services are also available through some of the CTCs. CTC services are provided through interdisciplinary teams and offer support to children,

youth and their families. Services are delivered at the centres as well as in homes, schools and other community settings. The Board and staff of One Kids Place would like to express their sincere thanks and gratitude to the following individuals, companies and service organizations for their generous donations received up to and including March 31, 2006.
